

# THE BOTANICAL MAGAZINE TOKYO

VOL. 105 (1992)

Numbers 1077-1080, Pages 1-697

## EDITORIAL BOARD

- HIDEMASA IMASEKI : Editor-in-Chief, *Research Institute for Biochemical Regulation, Nagoya University, Chikusa, Nagoya 464*
- TADAKI HIROSE : Editor, *Biological Institute, Tohoku University, Aramaki, Aoba, Sendai 980*
- MASAHIRO KATO : Editor, *Botanical Gardens, University of Tokyo, Hakusan, Bunkyo-ku, Tokyo 112*
- ROGER DEL MORAL, *University of Washington*
- TERUMITSU HORI, *University of Tsukuba*
- RYOKO IMAICHI, *Tamagawa University*
- YASUNORI INOUE, *Science University of Tokyo*
- NAOKI KACHI, *National Institute for Environmental Studies*
- HANS MOHR, *University of Freiburg*
- YOSHINORI OHSUMI, *University of Tokyo*
- PETER H. RAVEN, *Missouri Botanical Garden*
- TERUO SHIMMEN, *Himeji Institute of Technology*
- MITSUO SUZUKI, *Kanazawa University*
- HIROSHI TOBE, *Kyoto University*
- TETSUKAZU YAHARA, *University of Tokyo*

## THE BOTANICAL MAGAZINE, TOKYO

Vol. 105

### No. 1077 (March 1992)

KOIZUMI, M., ISHIDA, N., TAKAGISHI, H., SHIRATA, K. AND KANO, H.: Observation of Water and Na <sup>+</sup> in Tissues of the <i>Bruguiera gymnorrhiza</i> by <sup>1</sup> H- and <sup>23</sup> Na-NMR Imaging .....	1
SOEJIMA, A.: Taxonomical Study of <i>Aster leiophyllus</i> Complex (Compositae) in Kanto District, Japan, with Special Reference to Ploidy Level .....	13
YAMAMOTO, S.: Gap Characteristics and Gap Regeneration in Primary Evergreen Broad-leaved Forests of Western Japan .....	29
SAKIO, H. AND MASUZAWA, T.: Ecological Studies on the Timberline of Mt. Fuji — III. Seasonal Changes in Nitrogen Content in Leaves of Woody Plants .....	47
HOSON, T., KAMISAKA, S., MASUDA, Y. AND YAMASHITA, M.: Changes in Plant Growth Processes under Microgravity Conditions Simulated by a Three-Dimensional Clinostat .....	53
SAKAI, H., MORIGASAKI, S., KAMIDE, K., SUE, S., SANADA, Y. AND WADA, K.: Amino Acid Sequence Study of Ferredoxin from a Club Moss, <i>Lycopodium clavatum</i> L. ....	71
ISHIKURA, N., NAKAMURA, S., MATO, M. AND YAMAMOTO, K.: Detection and Characterization of an S-Adenosyl-L-methionine: Flavonoid 7-O-Methyltransferase from Leaves of <i>Prunus × yedoensis</i> Matsum. with Special Reference to Prunetrin Formation ....	83
YAMAMURA, Y. AND KIMURA, M.: Matter-economical Roles of Evergreen Leaves in <i>Aucuba japonica</i> , an Understory Shrub in the Warm-temperate region of Japan — 2. Dynamics and Budgets of Nutrients .....	95
KATO, M., NAKATO, N., CHENG, X. AND IWATSUKI, K.: Cytotaxonomic Study of Ferns of Yunnan, Southwestern China .....	105
OHSAWA, T., NISHIDA, H. AND NISHIDA, M.: Structure and Affinities of the Petrified Plants from the Cretaceous of Northern Japan and Saghalien XI — A Cupressoid Seed Cone from the Upper Cretaceous of Hokkaido .....	125
MURAKAMI, N.: Stelar Structure of <i>Asplenium obtusifolium</i> and Its Allied Species in the New World Tropics, with Comparison to the Asian Members of <i>Asplenium</i> Sect. <i>Hymenaspkenium</i> .....	135
MAKI, M.: Allozyme Variation in Japanese Species of <i>Chionographis</i> (Liliaceae) .....	149

### SHORT COMMUNICATION

ITO, M., SOEJIMA, A. AND WADA, M.: Low Genetic Differentiation between <i>Adiantum capillus-veneris</i> L. and <i>A. ogasawarense</i> Tagawa (Adiantaceae), an Endemic Pteridophyte of the Bonin (Ogasawara) Islands .....	161
KOHNO, A. AND NANMORI, T.: Changes in $\alpha$ - and $\beta$ -Amylase Activities during Seed Germination of Clover ( <i>Trifolium repens</i> ) .....	167

### INVITED ARTICLE

KAWAI, H.: Green Flagellar Autofluorescence in Brown Algal Swarmers and Their Phototactic Responses .....	171
SATO, N.: Betaine Lipids .....	185

## No. 1078 (June 1992)

IMAICHI, R. AND KATO, M.: Comparative Leaf Development of <i>Osmunda lancea</i> and <i>O. japonica</i> (Osmundaceae): Heterochronic Origin of Rheophytic Stenophylly	199
HIYAMA, T., IMAICHI, R. AND KATO, M.: Comparative Development of Gametophytes of <i>Osmunda lancea</i> and <i>O. japonica</i> (Osmundaceae): Adaptation of Rheophilous Fern Gametophyte	215
TSUKAHARA, M. AND HIROSAWA, T.: Characterization of Factors Affecting Plantlet Regeneration from Rice ( <i>Oryza sativa</i> L.) Callus	227
YODA, K. AND SUZUKI, M.: Comparative Wood Anatomy of <i>Coriaria</i>	235
TAKAMIYA, M., OSATO, K. AND ONO, K.: Karyomorphological Studies on <i>Woodwardia sensu lato</i> of Japan	247
KADOTA, A. AND WADA, M.: Photoorientation of Chloroplasts in Protonemal Cells of the Fern <i>Adiantum</i> as Analyzed by Use of a Video-tracking System	265
TANG, Y., WASHITANI, I. AND IWAKI, H.: Effects of Microsite Light Availability on the Survival and Growth of Oak Seedlings within a Grassland	281
TOBE, H., SUZUKI, M. AND FUKUHARA, T.: Pericarp Anatomy and Evolution in <i>Coriaria</i> (Coriariaceae)	289
FUKUHARA, T.: Seed-coat Anatomy of Japanese Species of <i>Corydalis</i> and <i>Dicentra</i> (Papaveraceae; Fumarioideae)	303

## SHORT COMMUNICATION

MASUDA, M. AND YAHARA, T.: Dispersal of Chasmogamous and Cleistogamous in Seeds <i>Viola hondoensis</i> W. Backer et H. Boiss	323
---	-----

## INVITED ARTICLE

IKEUCHI, M.: Subunit Proteins of Photosystem II	327
YAMAMOTO, S.: The Gap Theory in Forest Dynamics	375

## No. 1079 (September 1992)

HASEBE, M., ITO, M., KOFUJI, R., IWATSUKI, K. AND UEDA, K.: Phylogenetic Relationships in Gnetophyta Deduced from <i>rbcL</i> Gene Sequences	385
OHSAWA, H., NAKAYAMA, K. AND OKADA, M.: Adenylate Cyclase and Phosphodiesterase Activities in Relation to a Rapid Increase in Cellular cAMP Concentration by Hypotonic Shock in <i>Dunaliella viridis</i>	393
HIROSE, S. AND KOMAMINE, A.: Observations of Mitochondria and Mitochondrial Nuclei by Double Staining with Rhodamine-123 and DAPI in Synchronous Cultures of <i>Catharanthus roseus</i>	405
HASEBE, M. AND IWATSUKI, K.: Gene Localization on the Chloroplast DNA of the Maiden Hair Fern; <i>Adiantum capillus-veneris</i>	413
KODAMA, A.: Early Cytological Events in the Infection of the Root Hairs of <i>Trifolium repens</i> by <i>Rhizobium leguminosarum</i> biovar <i>trifolii</i> Observed by Glass Slide Culture in Living Seedlings	421
AMANO, M. AND OHBA, H.: Biosystematic Study of <i>Sedum</i> L. Subgenus <i>Aizoon</i> (Crassulaceae) II. Chromosome Numbers of Japanese <i>Sedum aizoon</i> var. <i>aizoon</i>	431
LIN, S.-J., KATO, M. AND IWATSUKI, K.: Diploid and Triploid Offspring of Triploid Agamosporous Fern <i>Dryopteris pacifica</i>	443
MASUHARA, G. AND KATSUYA, K.: Mycorrhizal Differences between Genuine Roots and Tuberous Roots of Adult Plants of <i>Spiranthes sinensis</i> var. <i>amoena</i> (Orchidaceae)	

.....	453
OHSAWA, T., NISHIDA, M. AND NISHIDA, H.: Structure and Affinities of the Petrified Plants from the Cretaceous of Northern Japan and Saghalien. XII. <i>Obirastrubus</i> gen. nov., Petrified Pinaceous Cones from the Upper Cretaceous of Hokkaido .....	461
WAKABAYASHI, M.: Embryology of Japanese <i>Mitella</i> (Saxifragaceae) and its Taxonomic Significance .....	485
OKAMURA, S., KAKIUCHI, M., SANO, A. AND NISHI, A.: Colchicine-binding Activity of Carrot Tubulin at Different Culture Age .....	503
MORITA, M., MURATA, Y., KANEKO, Y., MATSUSHITA, H. AND NISHI, A.: Changes in Membrane Glycoproteins during Fruit-body Formation in <i>Physarum polycephalum</i> .....	515

## No. 1080 (December 1992)

TOBE, H., YASUDA, S. AND OGINUMA, K.: Seed Coat Anatomy, Karyomorphology, and Relationships of <i>Simmondsia</i> (Simmondsiaceae) .....	529
IMAICHI, R. AND OKAMOTO, K.: Comparative Androecium Morphogenesis of <i>Sicyos angulatus</i> and <i>Sechium edule</i> (Cucurbitaceae) .....	539
OGINUMA, K., SETOGUCHI, H., OHBA, H. AND TOBE, H.: Karyomorphology of <i>Crossostylis</i> (Rhizophoraceae) .....	549
YOSHITAMA, K., ISHIKURA, N., MASO, T., OKA, S., KAI, K. AND UCHINO, A.: The Flavonoid Chemistry of the Genus <i>Trillium</i> I. Flavonol Glycosides in the Leaves of <i>Trillium tschonoskii</i> Maxim. and Their Geographical Variations .....	555
TANEYAMA, M.: Studies on C-Glycosides in Higher Plants IV. Intracellular Distribution of Bergenin and Related Compounds in <i>Saxifraga stolonifera</i> Leaves .....	565
TAKAMIYA, M.: Karyomorphology of the Genus <i>Lycopodium sensu stricto</i> and Relationships Among Species .....	573
OHBA, H., NASHIMA, H. AND ENOMOTO, S.: Culture Studies on <i>Caulerpa</i> (Caulerpales, Chlorophyceae) III. Reproduction, Development and Morphological Variation of Laboratory-cultured <i>C. racemosa</i> var. <i>peltata</i> .....	589
VANDER KLOET, S.P. AND DICKINSON, T.A.: The Taxonomy of <i>Vaccinium</i> section <i>Hemimyrtillus</i> .....	601
TSUKUI, T. AND SUGAWARA, T.: Dioecy in <i>Honkenya peploides</i> var. <i>major</i> (Caryophyllaceae) .....	615
SETOGUCHI, H., TOBE, H. AND OHBA, H.: Seed Coat Anatomy of <i>Crossostylis</i> (Rhizophoraceae); its Evolutionary and Systematic Implications.....	625
HOSHINO, T.: Cytogeographical Study of Four Aneuploids of <i>Carex oxyandra</i> Kudo in Japan .....	639
IDEI, M. AND CHIHARA, M.: Successive Observations on the Fertilization of a Centric Diatom <i>Melosira moniliformis</i> var. <i>octagona</i> .....	649
GOPAL, B.V.: Observations on Developmental and Structural Aspects of Stomata in Six Succulent Species of <i>Senecio</i> (Compositae) .....	659

## SHORT COMMUNICATION

KOIZUMI, M., ISHIDA, N. AND KANO, H.: Imaging $Mn^{2+}$ Uptake of a Maize Shoot by an NMR Microscope .....	667
HASEBE, M., KOFUJI, R., ITO, M., KATO, M., IWATSUKI, K. AND UEDA, K.: Phylogeny of Gymnosperms Inferred from <i>rbcL</i> Gene Sequences .....	673
PJON, C.-J., KIM, Y.-M. AND PAK, J.-Y.: Interaction of Cycloheximide and Light on Chlorophyll Content and Chloroplast Ultrastructure in <i>Brassica campestris</i> .....	681

## MINIREVIEW

TAKAGI, S. AND NAGAI, R. : Several Aspects of Current Research into the Role of Calcium in Plant Physiology .....	687

# Index of Key Words

## A

Action spectrum	171
Active oxygen	681
Adaptation	215
Adenylate cyclase	393
<i>Adiantum</i>	413
<i>Adiantum capillus-veneris</i>	161
<i>Adiantum ogasawarense</i>	161
Agamospory	443
Algal lipid	185
Allotetraploid	149
Allozyme	161
Allozyme variation	149
<i>Alnus maximowiczii</i>	47
$\alpha$ -Amylase	167
Anatomy	289
Androecium	539
Aneuploid	431
Anisocytic type	659
<i>Archicupressus</i>	125
Aspleniaceae	135
<i>Asplenium obtusifolium</i> group	135
<i>Asplenium</i> sect. <i>Hymenasplenium</i>	135
<i>Aster ageratoides</i>	13
<i>Aster leiophyllus</i>	13
<i>Aucuba japonica</i>	95
Autotropism	53

## B

Bergenin	656
Betaine lipid	185
Biogeography	601
Biogeography of Sino-Japanese ferns	105
Blue light-absorbing pigment	265
Bonin Islands	161
<i>Brassica campestris</i>	681
Brown algae	171
<i>Bruguiera gymnorhiza</i>	1
Buxaceae	529

## C

Calcium	687
Calcium ion ( $\text{Ca}^{2+}$ )	687
Callus	227
<i>Carex oxyandra</i>	639
Carrot	503
Caryophyllaceae	615
<i>Catharanthus roseus</i>	405

<i>Caulerpa racemosa</i> var. <i>laetevirens</i>	589
<i>Caulerpa racemosa</i> var. <i>peltata</i>	589
Cell activity	667
Cell cycle	405, 687
Cell motility	687
Central column	539
Centric diatom	649
Chasmogamy	323
Chieniopteris	247
Chionographis	149
Chlorophyceae	589
Chlorophyll bleaching	681
Chloroplast	385, 673
Chloroplast DNA	413
Chloroplast movement	265
Chromophyta	171
Chromosome	247, 529, 549
Chromosome fragmentation	639
Chromosome number	105, 573
Cleistogamy	323
Clinostat (three dimensional)	53
Clover amylase	167
Colchicine	503
Community structure	375
Congenital fusion	539
Conifer cone	125
Constancy	659
<i>Coriaria</i>	235, 289
Coriariaceae	235, 289
<i>Corydalis</i>	303
Cretaceous	125, 461
<i>Crossostylis</i>	549, 625
Cryptochrome	265
Cucurbitaceae	539
Culture age	503
Cupressaceae	125
Cyclic AMP	393
Cycloheximide	681
Cytology	443
Cytotaxonomy	105, 247, 573

## D

DAPI	405
DGTA	185
DGTS	185
Development	199, 215, 589
Dicentra	303
Dimorphic reproduction	323

Dioecy	615		
Disturbance	375		
Double staining of mitochondria	405		
<i>Dryopteris pacifica</i>	443		
<i>Dunaliella viridis</i>	393		
<b>E</b>			
Ecology	375		
Embryo development	485

## INSTRUCTIONS TO AUTHORS (Revised November, 1987)

1. The Botanical Magazine, Tokyo is an international journal dedicated to the dissemination of fundamental knowledge in all areas of plant sciences. Only original papers, including short communications, and invited review articles in English will be considered. Short communications should contain important new information and will be published in the earliest possible issue. Manuscripts are accepted for review with the understanding that the same work has not been and will not be published nor is presently being submitted elsewhere and that all persons listed as authors have given their approval for the submission of the paper. By submitting a manuscript, the authors agree that the copyright for their article will be transferred to the Botanical Society of Japan if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform and other reproductions of similar nature, and translations.
2. Manuscripts should be written in clear, concise and grammatical English. In addition to the original typewritten manuscript, two copies each of text material, tables and figures should be submitted. Photographic figures must be submitted in triplicate. Authors who are uncertain about proper English usage should have their manuscripts checked prior to submission by someone proficient in the English language.
3. Full papers are limited to 16 printed pages in length including tables, figures and abstract. Short communications are limited to four printed pages. With the approval of the Editorial Board, additional pages can be published only at the author's expense (2,000 yen per page).
4. If none of the authors is a member of the Botanical Society of Japan, the authors must agree to pay a charge of 2,000 yen for each printed page. In this case, the manuscript, if accepted, will be published only after commitment to pay the charge by the authors or the financial officer of their institution.
5. Preparation of Manuscript Copy :
  - A. Double-space everything. Use good-quality paper of 28×21 cm or A4 size. Each typewritten page usually consists of 25 lines, each line having approximately 65 characters (two and half typewritten pages should be approximately equivalent to one printed page).
  - B. Arrange the manuscript copy in the order listed below and number all pages consecutively, including tables and figures, in the upper right-hand corner. In addition, indicate the following items on a separate cover sheet: (1) name and address for mailing galley proofs, (2) running title with less than 40 characters, and (3) the number of tables and figures.
    - a. Title of the paper, authors' names and institutions and footnotes (abbreviations, symbols, etc.)
    - b. Abstract: This should be a lucid digest of the paper, not exceeding 200 words for a full paper, less than 50 words for a short communication.
    - c. Key words: Alphabetically arrange less than 6 words or phrases which identify the most important subjects covered by the paper.
    - d. Text: Preparation of the text with the headings of Introduction, Materials and Methods, Results, and Discussion is suggested. Short communications should follow the style of full papers, but the headings should be omitted.
    - e. References cited: References cited in the text should be arranged alphabetically according to author on a separate sheet. Each reference should be given in the following order: (1) authors' names, (2) year of publication, (3) title of the

paper, (4) name of the journal (or book), (5) volume and page. Draw a wavy line under the volume number. For a single book, the name of the publisher and its location should be indicated.

Examples :

Bassham, J.A. and M. Calvin. 1957. The Path of Carbon in Photosynthesis. Prentice-Hall, Englewood Cliffs, New Jersey.

Esau, E. 1945. Vascularization of the vegetative shoots in *Helianthus* and *Sambucus*. Amer. J. Bot. 32 : 18-29.

Torrey, J.Q. 1965. Physiological bases of organization and development in the root. In A. Lang, ed., Encyclopedia of Plant Physiology, vol. 15/1, pp. 1256-1327. Springer-Verlag, Berlin.

- f. Tables : In addition to the heading, a lucid legend to explain the meaning of the content without requiring reference to the text should be included below the table. With the approval of the Editorial Board, the folders of tables can be published only at the authors' expense.
- g. Legends for figures and plates : In addition to the heading, a lucid legend should explain the meaning of the figure without requiring reference to the text. These legends should be grouped on a separate sheet.
- h. Figures and plates : Plates submitted should be of a size less than  $27 \times 18$  cm. On the back of each figure or plate, indicate the authors' names, the number of the figure and its orientation. If a scale is necessary for the plate, it should be indicated. With the approval of the Editorial Board, colored illustrations can be published only at the authors' expense.
- C. Text references should be made using the authors' names (for three or more authors use Doe *et al.*) followed by the year of publication.  
Example :  
Hall and Cocking (1966) reported that ————. ———— (Hall and Cocking, 1966).
- D. The place of insertion of tables and/or figures in the text should be indicated on the right-hand margin of the sheet.
- E. Units of measurement should be in the metric system. Use Arabic numerals. For the use of Latin names, consult the International Code of Botanical Nomenclature.
6. Manuscripts not conforming to the aforementioned rules will be returned to the authors.
7. Whether or not the manuscript is accepted, amendment of the manuscript and the order of publication are to be decided by the Editorial Board.
8. Galley proofs will be sent directly from the printing company to the person designated. The authors are responsible for reading the first galley proof. No change of the content of the manuscript is permitted on the galley proof. If the Editorial Board recognizes the necessity for a change, this change will be made at the authors' expense.
9. The authors will receive free of charge 50 offprints without covers. Additional copies and covers can be obtained at cost.
10. All manuscripts should be sent by registered mail to the following address :  
Editorial Office  
The Botanical Society of Japan  
Toshin Building  
Hongo 2-27-2, Bunkyo-ku, Tokyo 113, Japan
11. The manuscripts of the papers published will not be returned to the authors. However, figures and plates will be returned upon request by the authors after the paper has been published.

NEWS • ANNOUNCEMENTS • CORRESPONDENCE • JOB POSTINGS

## *Contributions Invited*

*Tree Physiology Online*, available on *Celeritas*, is an electronic adjunct to the international journal *Tree Physiology*

It provides rapid publication of letters, announcements, technical notes, software, book notices, and job postings

A simple menu structure makes it easy to navigate the system, and an online keyword search facility lets you find what you want quickly

Installments of *Tree Physiology Online* and other publications can be downloaded from *Celeritas* to be searched, read and printed offline. Thus, the duration of a session online may be no more than a matter of seconds, which makes worldwide, direct-dial access cost-effective

There is no charge to logon, and a files download subscription is included with every subscription to the journal *Tree Physiology*. Otherwise, a files download subscription through December, 1993, including a license to use our offline search and display software, can be purchased online for \$30.00 US (\$37.50 Canadian, incl. GST)

*For more information, logon to:*

*at + 604-721-5530; up to 14,400 bps, 8 data bits, no parity*

IBM/MAC COMPATIBLE • 24 HOURS DAILY • NO ACCESS CHARGE

*Heron Publishing, Box 5579 Station B, Victoria, BC V8R 6S4, Canada*

# INTERNATIONAL JOURNAL OF PLANT SCIENCES

FORMERLY BOTANICAL GAZETTE

**International Journal of Plant Sciences** presents results of original, peer-reviewed investigations in all areas of the plant sciences. Founded as the **Botanical Gazette** in 1875, the journal has become a major outlet for botanical research; contributors include many of the field's outstanding scientists. Forthcoming articles are:

**Kyoko Ishida and Masayuki Katsumi**, Effects of gibberellin and abscisic acid on the cortical microtubule orientation in hypocotyl cells of light-grown cucumber seedlings, June 1992

**D. L. S. Harrison and J. N. Owens**, Gibberellin A<sub>4/7</sub> enhanced cone production in *Tsuga heterophylla*. The influence of gibberellin A<sub>4/7</sub> on seed and pollen-cone production, June 1992

**Hideki Takahashi**, Seed morphology and its systematic implications in Pyroloideae (Ericaceae), upcoming

**M. Kato and R. Imaichi**, A broad-leaved variant of the fern rheophyte, *Tectaria lobbii*, June 1992

**E. C. Vlot, W. H. J. van Houten, S. Mauthe, and K. Bachmann**, Genetic and non-genetic factors influencing deviations from five pappus parts in a hybrid between *Microseris douglasii* and *M. bigelovii* (Asteraceae, Lactuceae), March 1992

**Casey R. Lu, Donghern Kim, and Peter B. Kaufman**, Changes in the ultrastructure of cell walls, cellulose synthesis, and glucan synthase activity from gravistimulated pulvini of oat (*Avena sativa*), June 1992

**International Journal of Plant Sciences** invites submission of high quality manuscripts. The journal offers timely manuscript review, high production standards, and a short publication schedule. For further information contact: E. D. Garber or M. Ruddat, **IJPS**, Erman Biology Center, Room 2, The University of Chicago, 1101 East 57th Street, Chicago, IL 60637 USA.

Regular one-year subscription rates: Individual Botanical Society of Japan and Intl. Assoc. for Plant Physiology members \$28.00; Non-member Individuals \$42.00; Institutions \$95.00; Students (attach copy of valid ID) \$28.00. Outside USA, please add \$7.00 for postage. Canadians, please add postage and 7% GST. Visa and MasterCard accepted. To order, send check, purchase order, or complete credit card information (acct. #, exp. date, signature) to The University of Chicago Press, Journals Division, Dept. SEM2A, P.O. Box 37005, Chicago, IL 60637.

# ZOOLOGICAL SCIENCE

An International Journal published by The Zoological Society of Japan

---

## Some Articles Scheduled to Appear in Volume 9, Number 5 (1992)

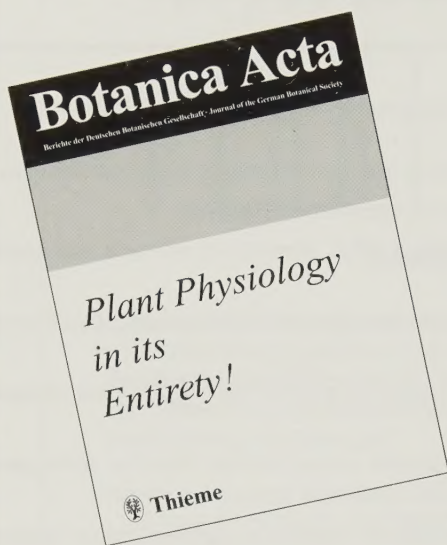

- Takahashi, S.: Heterogeneity and development of somatotrophs and mammatrophs in the rat (Review)
- Gerencser G. A. and B. Zelezna: Chloride pumps in biological membranes (Review)
- Azuma, K., N. Iwasaki, M. Azuma, T. Shinozawa and T. Suzuki: HPLC Analysis of retinoids extracted from the planarian, *Dugesia japonica*
- Fukuta, S., T. Ikata and I. Miura: Effect of disuse on muscle energy metabolism studied by *in vivo*  $^{31}$ -phosphorus magnetic resonance spectroscopy
- Ootsubo, T. and M. Sakai: Initiation of spermatophore protrusion behavior in the male cricket *Gryllus bimaculatus* DeGeer
- Rinkevich, B. and Y. Saito: Self-nonself recognition in the colonial protochordate *Botryllus schlosseri* from Mutsu bay, Japan
- Rinkevich, B., M. Shapira, I. L. Weissman and Y. Saito: Allogeneic responses between three remote populations of the cosmopolitan ascidian *Botryllus schlosseri*
- Fabry, H. and J. L. Hedrick: Antibody production in the goat: Immunokinetics and epitope specificity using a glycoprotein immunogen
- Asami, K.: Appearance of a nuclear histone H1 kinase at the start of DNA synthesis of regenerating rat liver
- Kubokawa, K., S. Ishii, K. Tanabe, K. Saitou and H. Tajima: Analysis of sex steroids in feces of giant pandas
- Paolucci, M. M. M. Di Fiore and G. Ciarcia: Oviduct  $17\beta$ -estradiol receptor in the female lizard, *Podarcis s. sicula*, during the sexual cycle: Relation to plasma  $17\beta$ -estradiol concentration and its binding proteins
- Kezuka, H., M. Iigo, K. Furukawa, K. Aida and I. Hanyu: Effects of photoperiod, pinealectomy and ophthalmectomy on circulating melatonin rhythms in the goldfish, *Carassius auratus*
- Arakawa, E., T. Kaneko, K. Tsukamoto and T. Hirano: Immunocytochemical detection of prolactin and growth hormone cells in the pituitary during early development of the Japanese eel, *Anguilla japonica*
- Ishikawa, Y.: Innervation of the caudal-fin muscles in the teleost fish, medaka (*Oryzias latipes*)
- 

**ZOOLOGICAL SCIENCE** is devoted to publication of original and review articles in the broad field of Zoology. Rapid communications for short reports of timely and unusual interest are also welcome

**ZOOLOGICAL SCIENCE** appears bimonthly. One annual volume consists of six numbers of more than 1200 pages including an issue containing abstracts of papers presented at the annual meeting of the Zoological Society of Japan. Members of the Society receive the Journal free of charge. Subscription by institutions is also welcome. Send inquiries about membership and subscription to the Zoological Society of Japan, Toshin Building, Hongo 2-27-2, Bunkyo-ku, Tokyo 113, Japan.

**MACUSCRIPTS OFFERED FOR CONSIDERATION AND CORRESPONDENCE CONCERNING EDITORIAL MATTERS** should be sent to Dr. Tsuneo Yamaguchi, Managing Editor, Zoological Science, Department of Biology, Faculty of Science, Okayama University, Okayama 700, Japan.

## *Attention all Plant Physiologists!*

Editor-in-Chief:

**Ulrich Lüttge**

Darmstadt, Germany

Editors:

**Eberhard Schnepf**

Heidelberg, Germany

**André Läuchli**

Davis, California, USA

**Toshiyuki Nagata**

Tokyo, Japan

Indexed in CC/Life Sciences,  
CC/Agriculture, Biology  
and Environmental Sciences,  
Science Citation Index,  
BIOSIS, and CABS

*Botanica Acta* is an international journal covering all fields of plant science. *Botanica Acta* stresses an intradisciplinary approach to plant physiology.

**Manuscripts from Japan please send to Prof. Dr. T. Nagata,**  
Dept. of Biology, Faculty of Science, Laboratory of Plant  
Physiology, University of Tokyo, Hongo, 113 Tokyo

1992年より年6回(隔月)刊行(これまで年4回刊行)

1993年 Vol. 106 年6回発行 ISSN 0932-8629 使用言語: 英語、独語

1993年年間定期購読料 52,800円 (船便送料・消費税別・予定概価)

# THE BOTANICAL MAGAZINE, TOKYO

Published by  
**The Botanical Society of Japan**

Toshin Building, Hongo 2-27-2, Bunkyo-ku  
Tokyo 113, Japan

**The Botanical Magazine, Tokyo** is issued quarterly, one volume a year. It is open to studies of all aspects of plant science. Members of the Society (regular and student) will receive each issue and can publish their accepted papers free of charge. Non-members are requested to pay page charges for publication. Those who wish to join the Society should complete the Application Form below and return to the Society together with membership (or subscription) fee.

Membership fee per year (for individual only): Regular ¥ 9,000, Student ¥ 4,500 (yen)  
Subscription rate for institution: ¥ 18,000 (yen)

Banker's fee and commission should be paid immediately by the applicant.
